DIALOGEDUSHIFT PROJECT

started on **01/09/2023**
and will end on **31/08/2025**

DIALOG - EDU - SHIFT

The project through its main results (WP2, WP3, WP4, and WP5) equips academicians with state-of-the-art knowledge on **how to assess, provide feedback and work with the AI-generated content by the students.**

GOALS

The DialogEduShift project addresses the challenges posed by AI chat tools like ChatGPT in higher education, focusing on their integration and impact on student evaluation. With 65% of faculty unsure how to approach this issue, the project aims to empower teachers with skills to integrate AI tools; enhance education quality using AI for personalized learning; foster digital readiness and resilience in institutions; develop a framework for evaluating AI tools' effectiveness and ethics.

WORKPACKAGE 2

Handbook on Usage of AI Language Models in Higher Education: Our project will provide educators with a comprehensive handbook that offers guidance and best practices for integrating AI language models effectively into their teaching methodologies.

We are pleased to announce that our project partners have successfully completed their work on **Work Package 2 (WP2)**. The next step is currently underway, as they are working on **translating the project's handbook**, ensuring it will be available in multiple languages.

THANK YOU FOR YOUR ONGOING SUPPORT AND INTEREST IN OUR WORK!

PROJECT UPDATES

Our partners continue to meet regularly through monthly online meetings. These meetings provide a platform to review the progress made, discuss key issues, and plan upcoming activities to ensure the project's success.

WORKPACKAGE 4

At the same time, the team is actively progressing with Work Package 4 (WP4), where they are in the process of developing an **e-learning course**. It will design a specialized course to equip academic teachers with the knowledge and skills required to harness the potential of language models like ChatGPT in higher education.
